

WYMONDHAM COLLEGE

A World Class State Boarding and Day School

Principal: Emma Arrand BA (Hons), FCCT, QTS

Dear Parents and Carers,

As we reach the time of year when you and your child begin to consider post-16 options, we would like to take this opportunity to remind you of the application process for a place in our **Wymondham College Sixth Form**.

We absolutely want our students to continue their education with us at Wymondham College. Our Sixth Form is a **high-achieving and dynamic environment** that not only promotes academic excellence but also offers a **broad and enriching curriculum**. Students are encouraged to develop as well-rounded young adults through leadership opportunities, enrichment activities, and community engagement that extend well beyond the classroom.

Although our Senior School is academically non-selective, please note that **entry to our Sixth Form is a competitive process**. Students are required to achieve a **Minimum Qualification Standard (MQS)** in order to continue their studies with us. At present, our MQS is a **minimum of Grade 5 across a student's best eight GCSE subjects**, with additional course-specific requirements, which can be found on our College website [here](#).

We are also currently considering running some additional courses for September 2026, details of which can be found [here](#).

It is important to note that **entry to the Sixth Form is not automatic** for students currently studying in Main School. We therefore encourage all students to remain focused and work hard to achieve their very best results, so that they avoid disappointment later on.

Mrs. Daniels, Assistant Principal – Main School Achievement, and I will be speaking with our Year 11 students this week to explain the process. We'll also be hosting an online Q&A session for parents next week — further details, including the time, will be shared soon.

If your child would like to be considered for a place in our Sixth Form, please ensure they complete an **online application by 30th November 2025**. At this stage, all applicants will receive a **conditional offer**, with final offers confirmed after GCSE results day. Further communication will be sent via our Admissions Team at that point.

We look forward to supporting your child through this important stage of their education and to hopefully welcoming them into our Sixth Form community.

Kind regards,

Mrs Edmunds-Grezio

Vice Principal – Head of Sixth Form
